

Below is a list of updated COVID 19 policies for all OPS campuses. If anyone has any questions, please contact your campus administrator. These abbreviated guidelines do not apply to children under legal school age as they are unable to wear a mask or social distance.

1. Please do not send your child to school if he/she is sick. Students that are sick at school will be sent home. He/She will be masked and isolated from other students until they can be picked up or leave the campus.
2. The CDC defines a close contact as someone who was within 6 feet of an infected person for a cumulative total of 15 minutes or more over a 24-hour period. The close contact definition excludes students who were within 3 to 6 feet of an infected student if the exposed student(s) wore mask(s) during the exposure time.
3. If you are fully vaccinated and boosted and were exposed to someone with COVID-19, quarantine is not necessary unless symptoms begin. You must mask for 10 days when around others and can test on day 5 after exposure.
4. Students who have tested positive for COVID-19 will be required to isolate for 5 days. When they are asymptomatic or their symptoms are resolving (Fever free with no fever reducers for 24 hours), they may return to school but must be masked for an additional 5 days.
5. Individuals, who have been exposed and are not vaccinated and/or boosted, will start their 5 day isolation period on the last day of known exposure. If this is an exposure to a family member in the household, the student's isolation period will begin when the person who is positive ends their isolation period. The student may test on day 5 if they are not displaying symptoms. With a negative PCR test (over the counter/self-administered tests will not be accepted), students may return to the classroom but will be required to wear a mask for 5 days.
