

Flu Shots are available for 4K-12th Grade

Dear Parents,

In our quest to keep our children free of the influenza virus, we are again offering the Flu vaccination. The CDC is not recommending the Flu mist this year due to lack of effectiveness, therefore we are not able to offer it to our students.

Dr. Karen Connelly of SouthernMed Pediatrics-Hillcrest has graciously offered to come to our school and give the flu shot to our students. The vaccination will be given on Tuesday, October 2nd for Upper and Lower Campus.

We are very grateful for Dr. Connelly's willingness to help. In order to prepare the correct number of vaccinations, please turn in your **permission form and payment by Friday, September 28th.** To reserve your child's vaccination, you will need to complete, in its entirety, the attached permission/consent form. Additional information will be provided in the Tuesday Email blast. Also, please attach a check made **payable to OPS for** \$25. Return your completed form and payment to the homeroom teacher or you may turn it in to Mrs. Rutland's office (Student Services) on the Upper Campus or Mrs. Pascoe's office at the Lower Campus by **Friday, September 28th.** Please complete the appropriate forms in its entirety by **Friday, September 28th.**

Thank you!

Beth Kuck, LPN
School Nurse

All proceeds will go to purchasing of medical supplies for the school
